

## RENOVATION of KITCHEN AND POWDER ROOM ■ ■ ■

A Lakeview two-flat residence converted a drab, monotone cream colored kitchen & bath into this rich contemporary design. The space allows ample room for cooking and baking parties with multiple chefs or comfortable casual family dining.

The granite countertops and iridescent glass mosaic backsplash complement each other beautifully and change their character throughout the day. The tall cabinets provide ample storage and the under counter cabinets are extremely convenient.

## RENOVATION of KITCHEN AND POWDER ROOM ■ ■ ■

A full bath was converted into an elegant powder room to provide more space to the adjacent play room. The kitchen granite slabs provided enough extra granite for the bathroom vanity top and a desk in the open pantry area. The color scheme in this powder room highlighted the earth tones in the granite and provided a stunning compliment to the kitchen.

The design featured a unique slate tile with a tumbled mosaic stone inset surrounded by a hand forged bronze liner. This liner was also used to cap the wall tile.
